MedAdvisor Solutions™

Release Notes

June 2025

Overview:

Across the month of June, we rolled out a number of fixes to known bugs and ensured the ongoing stability of our MedAdvisor for Pharmacy platform whilst pharmacies focused on the task of vaccinating our communities. Please read below for more information on the updates now live in your software.

Bug Fixes Completed:

- Fixed issue where dispensing a deferred script did not link correctly to the original script.
- Fixed "select drug" drop down not working in Script Tracker and Compliance report.
- Fixed Owing Report timing out before report could load.
- Owing Report load times have also been improved.

You may have missed:

Changes to Calendar & Bookings Workflow
Entering email and phone number now optional when booking walk-in patients for services.

Patient Search Speed Improvements
Patient Search performance has been significantly enhanced greatly reducing loading times.

Additional Enhancements to AIR Integration:

- **Patient Immunisation History Statement:** Download a patient's immunisation statement from AIR directly within immunisation forms and email it upon request.
- **Expanded Patient Data Access:** View additional AIR details, including vaccine trial participation, natural immunity status, and upcoming National Immunisation Program (NIP) vaccines.
- **Improved Patient Search & Creation:** Search AIR for patient records and create new profiles in MedAdvisor without accessing dispense.

Please contact our Customer Support Team at support@medadvisorsolutions.com if you have feedback or are experiencing any product challenges.
